

Flotender™ by Filtrific®

Greywater Multi-Zone Drip Irrigation System

Inside the processor, a multi-stage pressure pump simultaneously operates both the drip irrigation and a self leveling filter wash system.

GL-75-2SP-MZP4

2 Gallons / Minute, 120 Gallons/ Hour @ 35 PSI initial pressure
Two Stage 115V, 5.5 A, 650 W pressure pump

GL-75-3SP-MZP4

6 Gallons / Minute, 360 Gallons/ Hour @ 35 PSI initial pressure
Three Stage 115V, 8.4 A, 900 W pressure pump

GL-75-4SP-MZP4

10 Gallons / Minute, 600 Gallons/ Hour @ 35 PSI initial pressure
Four Stage 115V, 9.8 A pressure pump, 1100 W pressure pump

Includes:

- 75 Gallon Processor with Secondary Filter and Vault
- Thick-wall polyethylene housing
- Multi-stage pressure pump.
- Two 150 mesh (100 micron) stainless steel filter baskets with self purging tubes
- Internal primary filter wash system
- Multi-Zone, 4 program controller and 6 start times per program for continual daily operation as needed
